Please note that the colours shown are an approximate representation of the actual product colour. Due to the printing process, colour samples may vary. Additionally, actual product colour may vary from batch to batch directly from the mills. The colours illustrated are specifically for the TrimLock IMP panels and trim accessories, available in both Smooth Tex and Wood Grain finishes.

As a leading Insulated Metal Panel (IMP) Manufacture, we specialize in producing modern and functional exterior cladding that provides unmatched value and benefits.

- Certified Protection:**
- * R6.6+ Insulation
