## Architectural

Interlocking Hidden Fastening

With three types of finishes we stand out from other IMP systems. Our most popular proprietary 1.5mm stone texture is available with 100's of color options. The steel Crinkle and Wood grain finishes are coated directly at the Steel Mills providing the Highest Quality of finishes. All our cladding and flashing are made from galvanized sheet steel providing long term protection against exterior exposures. In addition, each TrimLock manufacture IMP panel is back by a 30 year warranty.
